PROJECT SCOPE

36" X 60" Donor Wall

MATERIAL/PROCESS

Zinc

BUDGET

\$5,000

Serving the long-term needs of the Performing Arts Center, this donation signage system was created with magnetic inserts for each donor. This technique easily allows the addition of contributor names when necessary. Each zinc piece was produced through CNC routing with engraved graphics, filled with paint and polished off with a natural finish. The signs are secured with mechanical fasteners and suitably located throughout the facility at each seating level.
